

On Monday, April 8, 2024, people in Delaware County and other areas of Ohio will be able to experience the totality of a solar eclipse. On the day of the eclipse the county's population could double. With the expected increase of spectators and difficult travel throughout the county **our inspectors will only be completing virtual inspections**. Inspections scheduled for Monday, April 8th that are unable to be completed will automatically be rolled to the next business day. Inspections may take 1-4 business days to complete.

Please contact our office with any questions or concerns.
